PRODUCTION

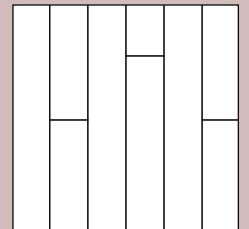

Why Royal Floor?

- Our floorings consists of real wood – made by nature and a value for generations
- The oak top layer is very resistant and can be sanded several times
- Base is first class dimensionally stable plywood of fast growing birch
- The 2-ply construction conserves natural resources
- Suitable for water based under floor heating systems
- All laying patterns can be combined as desired
- The oiled surface emphasizes the natural look of the wood and gives the flooring a unique touch

Birch plywood base, 4-sides groove, square edged.
Produced according to EN 13489. Quality: nature

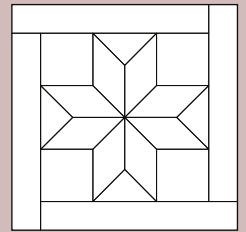

For this product which is also known as panel parquet individual elements are put together in handwork to geometric patterns. This results artfully designed tiles. The tiles are grooved all around and can be installed with separate tongues. Panel parquet offers a great versatility and a wide scope of design options. We offer three designs: Versailles, Vienna and Verona.
